I'm a teacher-turned-developer eager to add value to any project or organization. I'm a self-motivated, goal-oriented individual with excellent verbal and written communication skills looking to make lasting contributions. Confident working in the full stack, utilizing MVC or component based architectures, and able to quickly adopt new libraries, tech, and practices.

---

## Skills

HTML • CSS • JavaScript • React • Redux • AngularJS • Node/Express • SQL • RESTful APIs • Sass • Bootstrap • jQuery • Webpack/Gulp

---

## Projects

### DevMountain Housing Portal

HTML/CSS • JavaScript • React • Node • Express •

Bootstrap

Utilized SEAN-stack to create business solution that is in-use by housing directors at DevMountain. Software streamlines placement and management of student residents and residential properties.

- Implemented full-stack drag-and-drop feature to add or remove students from apartments
- Coordinated project goals, Git, tracked daily progression, pair programmed to overcome technical challenges
- Integrated Redux into group's React environment to manage complex forms and large amounts of property and student data

### Medium Clone

HTML/CSS • JavaScript • AngularJS • SQL • Node • Express • Bootstrap

Core-feature clone of Medium.com - a platform for sharing articles.

- Implemented text editor that supports styling, tagging, embedded videos, and auto-save.
- Notification system that alerts authors when one of their articles has been liked or bookmarked.
- Tagging system that allows readers to easily track topics of interest

---

## Education

- DevMountain • January - April 2017  
Completed immersive, rigorous, project-based curriculum utilizing the SEAN stack and popular JavaScript libraries.
- Boston Language Institute • April 2012  
Certificate to Teach English as a Foreign Language
- Lesley University • August 2007 - May 2011  
Bachelor's in English Literature

---
